Subject: RE: Mark
Attachments: EPA Talking Points on Rockwool V2.docx; notice.pdf

Mark – a slightly revised set of TPS – this version includes a blurb re the state’s proper protocol during the permit process:

WVDEP and Roxul followed the requisite public notice and public participation requirements. No public comments were received. WVDEP addressed EPA’s comments to the satisfaction of the Agency, and therefore approved the permit.

I’m also attaching the Notice for your reference... thanks.
Joan

Latest version of TPs for tomorrow – I’m still trying to get one additional bullet from APD – but wanted you to have the latest version – thanks.

Also – this document refers to Roxul; however, as you know, the newspapers and DEP keep referring to it by its new name, Rockwool. I would suggest you follow DEP’s lead tomorrow – if the permit was written for Roxul – that’s one thing. But if it was approved for Rockwool – we should use Rockwool.

Thanks.
